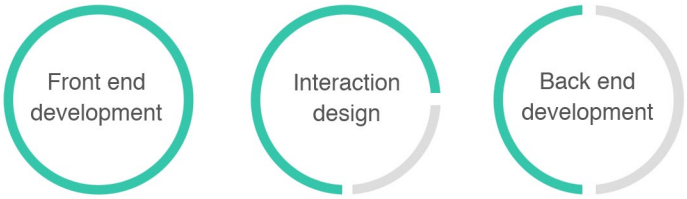
PERSONAL STATEMENT

I am a creative web designer and developer interested in working with like-minded individuals to produce some truly amazing work.

I have both theoretcial and practical experience with a variety of coding languages and frameworks along with a diverse skill set covering all aspects of digital media. Most of all I love simple and honest design.

AREAS OF PROFICIENCY



EDUCATION

BSc Multimedia Technology and Design with a Year In Industry
University of Kent, Canterbury

The degree I am studying combines technical skills with the ability to meet design challenges.

Many distinct fields are covered including: Interaction design, software engineering, 3D modelling and animation, visual effects and compositing, film-making and editing, mobile application development.

The course has allowed me to learn several new programming languages while giving me the theoretical knowledge needed to build large scale poducts to a professional standard.

I have consistently recieved marks of more than 70% for my work and I am expecting a First Class award later on this year.

RECENT EXPERIENCE

Kahli Lifestyle
2013 - present
Freelance Web Designer/Developer
Lead design and development, using Woocommerce to create a unique e-commerce solution for Kahli Lifestyle. Built a fully responsive Wordpress template along with designs for business cards and packaging stickers.

Erudify
erudify.com
2013
Freelance Web Designer
Erudify contacted me to design the front-end user interface for their new e-learning web application. This led on to building a completely new template for their corporate website as well as establishing cross-media branding.

Addison Group
addison-group.net
2012 - 2013
Junior Web Developer
Supported Lead and Mid-weight developers with large projects and completed day-to-day maintenance tasks for the company's many clients. These jobs involved simple text edits, error fixes, building new pages and occasionally building whole new sections and interactive elements. On several occasions I acted as lead developer for high profile clients such as Centrica, Rexam and Tesco.
